

Health, Safety & Environmental Policy

At Blackrock Petroleum we put all our efforts to understand and actively manage environmental risks associated with implementation of innovative technologies to produce cleaner and safer energy.

The objectives of Blackrock Petroleum Company Health, Safety and Environment policy:

- To comply with its legal obligations under the current Health, Safety and Welfare Act and the Environmental Protection Act, together with all other applicable statutory provisions and relevant codes of practice.
- To promote health, safety and environmental awareness throughout the organization.
- To maintain a safe and healthy working environment for its employees, with adequate facilities appropriate to the nature of the business activities.
- To minimize the social impact of the company activities and avoid damage to the environment through regular reviews of the business from environmental and management systems audits.
- To undertake environmental impact studies as part of any company relocation or enlargement of existing facilities.
